

Bibliographical sketch

During the past 25 years, Franklin Dexter, MD PhD FASA, and his colleagues have developed much of the science in anesthesia group and operating room management. Dr. Dexter completed a Sc.B. in Applied Mathematics & Biology with Honors from Brown University; Master's Degree & Ph.D. in Biomedical Engineering, with specialization in biomathematics, from Case Western Reserve University; M.D. degree from Case Western Reserve University School of Medicine; and Anesthesiology residency at the University of Iowa. He is Professor in the Department of Anesthesia at the University of Iowa. Several times a year, he teaches a four-day intensive course in operating room management. He has given more than 180 invited presentations in the United States and abroad. In multiple editorial positions, he has reviewed greater than 7060 papers and grant applications, for 80 different journals over the past 5 years. As Director of the Division of Management Consulting in the Department of Anesthesia, he has performed more than 740 consultations, for more than 220 corporations. He has published more than 585 papers in the fields of operating room management and anesthesia. His h-index is 71. Details of his background, expertise, contact information, as well as the comprehensive bibliography of scientific papers in OR management, are at FranklinDexter.net
